DETAILED ACTION

Response to Amendment

1. This Office Action is in response to BPAI Decision on date: 05/05/2009.

Claims 1-11, 18-22, 24 and 25 are still pending.

Reasons for Allowance

2. Claims 1-11, 18-22, 24 and 25 are allowed.

The following is a statement of reason for the indication of allowance: see BPAI Decision (pages 3-8)

The updated search found that:

Fumarolo (US 6,366,782) discloses that "Selection of transmission mode is preferably made by using a computer mouse to move the cursor 308 on top of a transmission mode button 406 as depicted in FIG. 4 and clicking the mouse button to select the transmission mode button 406. Upon receipt of an indication from the GUI 119 that the transmission mode button 406 has been selected, the processor 121 retrieves a list of permitted transmission modes from the memory 123 and instructs the GUI 119 to display the list to the terminal user" (see fig. 4 and its description).

Catreux (US 6,802,035) suggests that "A subsequent transmission mode is selected based upon the predetermined channel database, the error factor and a subsequent channel characterization. The predetermined channel database can include a predetermined look-up-table that provides transmission mode selections based upon the channel characterizations" (see Abstract)

Wilhem (US 2001/0029191) describes that "The subscriber terminal MT, which receives this priority list in a next step 135, can select a mode from the radio transmission modes DECT, GSM or EDGE offered to it, wherein the order of precedence in the priority list indicates which radio transmission modes should preferably be used" (see [0028])

However, the combination of each of the cited prior arts above does not disclose nor fairly suggest all claimed limitations of presenting on the wireless handset a set of choices indicating transmission modes for streaming media content to the wireless handset, wherein the set of choices is tailored based on at least one presentation capability of the wireless handset; receiving from a user of the wireless handset an indication of a transmission mode selected from the set of choices; sending from the wireless handset to a media server an indication of the selected transmission mode; and receiving into the wireless handset media content streamed from the media server at the selected transmission mode, therefore claims 1-11, 18-22, 24 and 25 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
